understanding language testing presents an introduction to language tests and the process of test development that starts at the very beginning assuming no knowledge of the field the book promotes a practical understanding of language testing using examples from a variety of languages while grounded on solid theoretical principles the book focuses on fostering a true understanding of the various uses of language tests and the process of test development scoring test performance analyzing and interpreting test results and above all using tests as ethically and fairly as possible so that test takers are given every opportunity to do their best to learn as much as possible and feel positive about their language learning each chapter includes a summary suggestions for further reading and exercises as such this is the ideal book for both beginning students of linguistics and language education or anyone in a related discipline looking for a first introduction to language testing

at a time when globalization and technology are dramatically altering the world we live in is education reform in the united states headed down the right path are schools emphasizing the knowledge and skills that students need in a global society or are they actually undermining their strengths by overemphasizing high stakes testing and standardization are education systems in china and other countries really as superior as some people claim these and other questions are at the heart of author yong zhao s thoughtful and informative book born and raised in china and now a distinguished professor at michigan state university zhao bases many of his observations on firsthand experience as a student in china and as a parent of children attending school in the united states his unique perspective leads him to conclude that american education is at a crossroads and we need to change course to maintain leadership in a rapidly changing world to make his case zhao explains what s right

with american education why much of the criticism of schools in the united states has been misleading and misinformed why china and other nations in asia are actually reforming their systems to be more like their american counterparts how globalization and the death of distance are affecting jobs and everyday life and how the virtual world is transforming the economic and social landscape in ways far more profound than many people realize educators policymakers parents and others interested in preparing students to be productive global citizens will gain a clear understanding of what kinds of knowledge and skills constitute digital competence and global competence and what schools can and must do to meet the challenges and opportunities brought about by globalization and technology

this book investigates from a sociocultural linguistic and pedagogical perspective the conceptual and pragmatic frameworks that characterize secondary language learning in a northeast asian context hadzantonis contextualizes these salient domains through an engagement with social and cultural themes such as the familial political as well as cultural commodities and socioeducational structures in this way the text employs tools such as transnational theory and performativity and develops a model that contributes to the resolution of one of the greatest economic issues of the time that of ineffective secondary language learning

international scholars and researchers present cutting edge contributions on the significance of vocabulary in current thinking on first and second language acquisition in the school and at home by pursuing common themes across first and second language and bilingual contexts the editors offer a collection that tackles the most important issues
